SUMMARY

I build saleable, resilient software architectures and APIs that drive efficiency for fin-tech, public sector, and international clients. With a passion for mentor-ship and technical leadership, I empower teams and develop solutions that automate complex processes and deliver tangible results.

EXPERIENCE

6+ Years

❖ Technical Lead | Squadio - REMOTE (KSA) (JAN'25 - OCT'25)

Led back-end development for Rushd Consulting's team on KSA government's food waste management system, enhancing nationwide resource distribution and sustainability.

❖ Sr Software Engineer | Sanad Cash Inc - REMOTE (Jordan) (OCT'23 - OCT'24)

Architected and implemented Fin-tech API for Zoho Books and ANB, improving data integration and operational efficiency for KSA banking systems.

❖ Technical Trainer | Excellence Delivered - LAHORE (AUG'22 - OCT'24)

Mentored 45+ students and graduates through high-impact government initiatives (NAVVTAC & Tech-lift), creating a hands-on environment for mastering .NET and modern web technologies. Successfully transformed trainees into confident, job-ready full-stack developers, achieving a 90% job placement rate by bridging the gap between academic theory and industry-standard technical skills.

❖ Sr Software Engineer | Cinnova Technologies - LAHORE (NOV'22 - OCT'23)

Collaborated with USA clients, adding new features and resolving critical bugs across various technology stacks. Improved system functionality leading to a 20% increase in user satisfaction and system stability.

❖ Senior Consultant | Abacus Consulting - LAHORE (NOV'19 – NOV'22)

Led the automation of budgeting, schemes, and planning processes for the Baluchistan province. Reduced manual overhead by 40% and improving data accuracy for provincial planning commission projects.
